

ABOUT IIIT DHARWAD

IIIT Dharwad, established in 2015 under a Public-Private-Partnership (PPP) between the Ministry of Education, Government of Karnataka, and Keonics, is an Institute of National Importance aimed at bridging the skill gap in high-end IT sectors. It offers BTech programs in Computer Science and Engineering, Electronics and Communication Engineering, and Data Science and AI, focusing on solving socially relevant problems in India. The institute's semi-modern theme is reflected in its campus design and logo, symbolizing its vision to address emerging challenges in IT, robotics, data sciences, and cyber-physical systems. Strategically located in Hubballi-Dharwad, it is a growing educational hub. Also with proximity to Bengaluru, IIIT Dharwad is poised to make a significant impact on the Indian IT industry, academia, and the local community.

ABOUT NAIN 2.0

The New Age Incubation Network 2.0 scheme of GoK is implemented to create an ecosystem that promotes innovation in educational institutions. Under this scheme, students are encouraged to identify local problems, address them using concepts of frugal innovation and also develop appropriate technology-based solutions and working prototypes. For this, mentors are assigned to students to help them formulate a business model and encourage them to think like entrepreneurs.

ABOUT HACKATHON

A Hackathon is a time-bound, high-energy coding marathon where programmers, developers, designers, and tech enthusiasts come together to collaborate intensively on software or hardware projects. It is a platform that fosters creativity, innovation, and teamwork by encouraging participants to design, develop, and present functional tech solutions to real-world problems – all within a limited time frame.
